Hi! Jaap here 🙋

visitors 1819

I'm a Developer Advocate at Rubrik and the more I code the more I am starting to feel I should move out of my apartment and call @GitHub home...

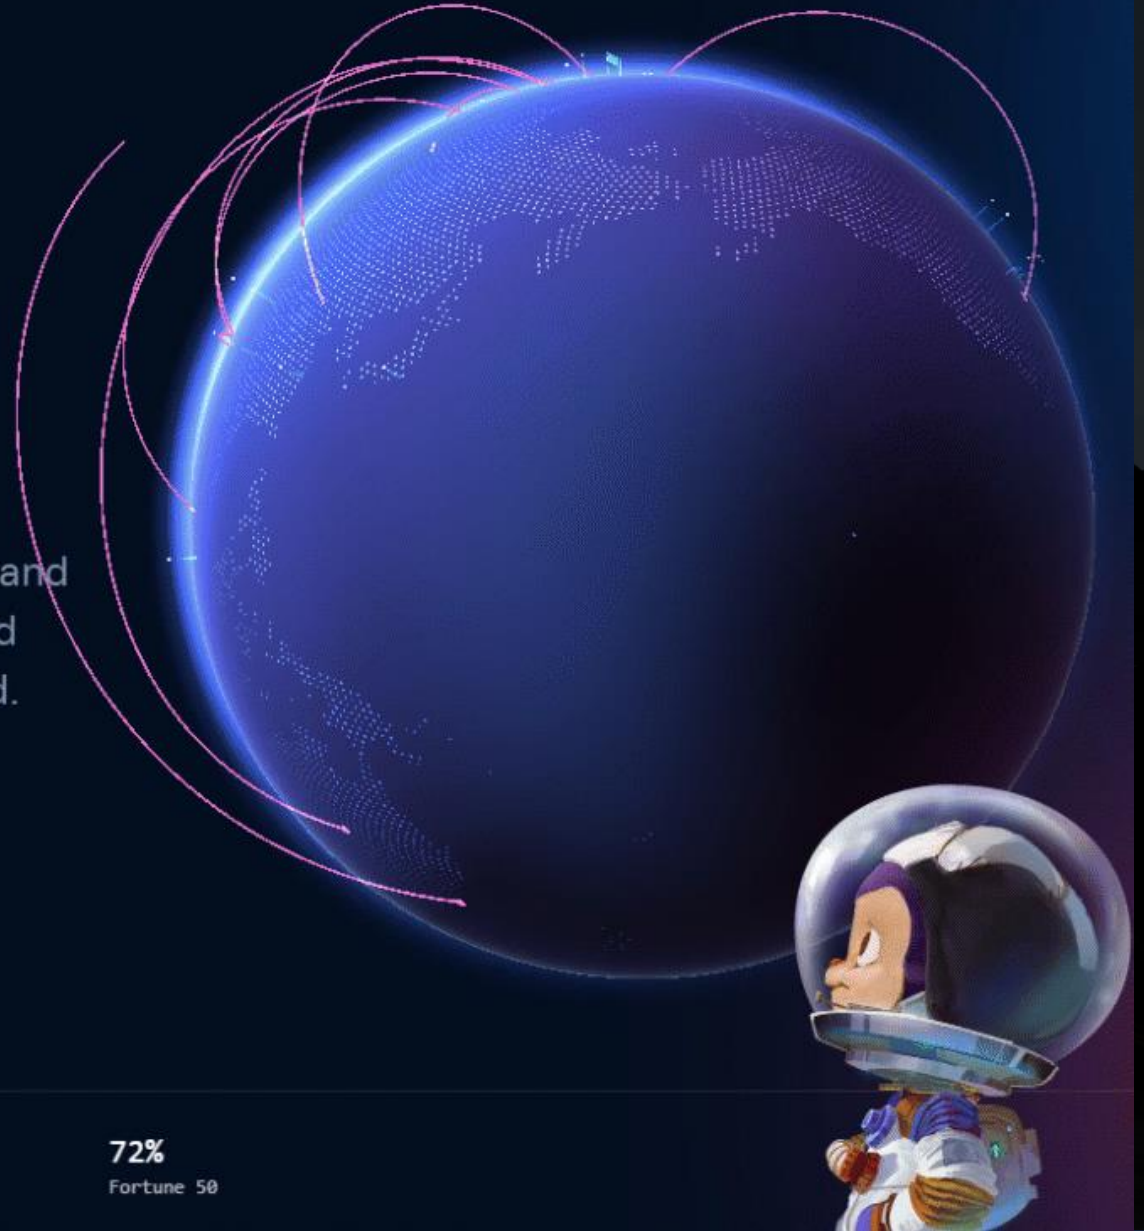

- 🔧 I'm currently learning to get better at Go & Terraform and I've been dabbling in some Python & Ruby
- 🎤 I enjoy sharing my knowledge, either on stage at conferences around the globe or from behind my webcam at home 🏠
- 💬 Feel free to reach out with any questions or comments on code, or if you are looking for a speaker for your event.
- 🚩 How to reach me:
 - 🐦 - [Twitter](#)
 - 🌐 - [LinkedIn](#)
 - 🐙 - [GitHub](#)
- ⚡ Fun fact: I like animals, all animals, you can update the image by raising an issue with NEW in the title: [Update Photo Here](#). If you have any cool photos of your pets feel free to submit a PR for my assets folder and your animals will be part of the rotation!

GitHub Globe

Where the world builds software

Millions of developers and companies build, ship, and maintain their software on GitHub—the largest and most advanced development platform in the world.
